### ABOUT

Since 2012, I've partnered with dozens of global brands, non-profits, governments, and big media companies to deliver award-winning web projects.

I love building things that help people connect, tell their stories, and share information.

### SKILLS

**JavaScript** – Native & ESNext. JS frameworks, React, NextJS, TypeScript, Postgres, Prisma, GraphQL, and Angular. 10 years JS experience.

**WordPress** – Fully custom Gutenberg theme & plugin development. WooCommerce, theme.json, and Headless WP. 15 years PHP & CMS experience.

**Styles** – Modern, responsive, & optimized CSS. Style guides, styled components, and design systems. PostCSS, SCSS, Webpack & stylelint config.

**Templates** – Semantic, WCAG accessible HTML. Template markup in JSX, PHP & Liquid.

**Tech Lead** – Functional requirements, task estimates, project timelines, software architecture, code review, CI & deployments. Team leadership and communication.

**Design** – UX feedback and feasibility reviews. Adobe and Affinity suites, Cavana, & Figma.
